

Connect to the Power Engineers of the Future at...

www.pes-careers.org

PES-Careers is a customized professional service to help you find power and energy engineering students who are the best candidates for your job and internship positions. PES-Careers is offered by IEEE PES without charge to promote the power and energy engineering profession. Subscribe today to join energy businesses, engineering firms, manufacturing companies, transmission and distribution companies, system operators, among other PES-Careers users.

Use PES-Careers to efficiently promote and enhance your recruiting methods...

List in the Employer Directory Listing. Use your listing to tell students that your company hires students for power engineering positions. Use it for free advertising and on-line recruiting.

Post Job Openings. Allows your company to quickly get the word out to students about new job and internship opportunities.

Search for students based on desired job applicant attributes. Allows you to review and search student profiles and resumes.

PES-Careers is offered by IEEE PES without charge to promote the power and energy engineering profession.
